STATEMENT OF CONFORMANCE FOR ART MATERIALS (LHAMA AND CALIFORNIA PROPOSITION 65)

September 5, 2006

To : Barbara Lee DaBoll
2900 Mayfield Avenue
La Crescenta, CA 91214

FROM: JOHN J. CLARY, PH.D, FELLOW A.T.S.

ART MATERIAL: Crayon Rocks from Barbara Lee DaBoll, its Franchisees, Distributors and Dealers

I have reviewed the toxicity of the current chemical composition of the above named art material. The review is based on specific information on acute and chronic toxicity, physical form, bioavailability, concentration used, standard practices and related information. The risk assessment on the art material itself is attached.

In my professional judgment, based on this evaluation, your art material listed above conforms to ASTM D 4236. The statement "**conforms to ASTM D 4236**" is required for chronic toxicity. No labeling is required under the provisions of FHSA (16CFR 1500.14). This art material must be re-evaluated at least every five years.

No labeling is required under the provisions of The California Safe Drinking Water and Toxic Enforcement Act of 1986.

This material is determined to be acid free and non-toxic under proposed use conditions
